General Ogason Proclaims Mimself President of the Republic of Mexico-Arrest of the Assassins of the Belgian Envoy-The Liberal Victory; at Uruspan-Imperial Beverse near Parras-Two Hundred Prisoners Shot on the Spot, Etc.

HAVANA, March 28.—Respecting the outrage apon the Belgian Envoy at Rio Frio the Estafeite says that the French police, ably directed by Mr. Maury, are on the track of the instigators of the ambush, and the public impression that it was a blow struck from political motives will probably be confirmed. It is, however, feared that the two wounded bandits may have been killed by the conspirators before they gave any

General Lozado has already received regular orders to commence his campaign against the

rebels of Sinaloa.

Letters from Mazatlan of the 19th of February state that the town continued to be be-

sieged by the forces of Corona, Ogazon, accompanied by a number of officers, was in Culiscau, and, in virtue of the consti-tution of 1857, has got himself proclaimed President, according to a communication to the

Estafette.
In consequence of Maximilian's appointment of his Excellency General Almonte on a mis-sion to Europe, the latter has considered it proper to resign the high posts he held, agreeproper to resign the high posts he held, agreeably to the system or retrenchment which has been inaugurated. His Majesty has been pleased with this new proof of self-denial and patriotism on the part of Almonte, and has accepted the resignation of his posts (Grand Marshal of the Court, Minister of the Household, and Grand Chancellor of the Orders of the Empire). The Emperor has thanked him accordingly.

The Sociedad of the 15th says:—"Although the

text of the Concordate will not yet appear offi-cially in Europe, it will be published before the ratifications are exchanged. As the Mexican Commissioners in Rome have finished their labors satisfactorily, it is expected that they will soon be recalled. The arrival of Senor Zalazar Harrequi in the steamer Ciudad Contal from Vera Cruz induces one to suppose that the contemplated changes in the ministry will be carried out effectively. We do not yet know whether Senor Somera has taken charge of the Ministerio de Fomento (Public Works)."

The Imperialist General Mendez arrived in Mexico city on Thursday, and it is believed that Government will furnish him with the necessary means for the pacification of Michoacan. His forces had been much reduced by the late,

The Nacion of the 18th says that the authorities had succeeded in apprehending several of the bandits who attacked the diligence with the returning Commissioners sent to Mexico by the King of the Belgians.
There was a French force in Acambaro.

Regules and Riva Palacio, what with new men and their dispersed forces, had gathered together six hundred men at Ario.

The sociedad says that in the towns of the Juarist line of the East, the people were in favor of the continuation of Juarez as President, at least until another public election can be held.

The reports of the affair at Morelia have been so contradictory that it would appear that the account given by the Pajaro Verde seems the most likely. The action took place on the 20th, in the plains of Uruapan, and was an obstinate battle, although adverse to the Imperialist arms, inasmuch as even General Mendez had to escape by fighting his way through the enemy. The rout created great alarm in Morelia and Joluca Mendez, far from being disconcerted, rallied his forces, collected five hundred men who were straggling, harangued them and threw himself upon Uruapan, where the enemy were resting

on their laurels, and cut them up badly.

General Mendez made his entry into Morelia on the 25th, with the prisoners he had captured and the arms taken from the Liberals.

According to the Gaceta of Monterey, the re

sommendation of Marshal Bazaine, in reward for the brilliant conduct of General Jeaningros at Monterey and Lermas, his Majesty had decorated him with the Grand Cross of Officer of the Order of Guadalupe, while De la Hayrie had been made an officer of said order, and Captains Bastubel, Casablanca, and Noel, knights of the The Marshal had decorated Colonel Lopez, of the Empress' regiment, with the Cross of officer of the Legion of Honor for his gallantry in the action at San Salvador.

LIBERAL VICTORY NEAR PARRAS.

The Sociedad of the 19th states that accounts had been received the night before from Mon-terey, dated the 8th. In the action at Parras, Commandant Brien, Captain Casse, and hundred and fifty Frenchmen perished, and the thirty remaining defended themselves in the till Commandant Saussie seut them assistance, when the chiefs Viezca, Naranjo, Trevino, Cabada, and Rivera fled. General Douay left Buena Vista for Parras with about one thousand men.

The Erg and Estafette speak of a late imperial reverse suffered by a section of the foreign regi-ment under Count de Brien, near Parras. Two small detachments were surrounded and de stroyed by the bands of Escobedo, supported by a large number of American negroes, Brief and most of his officers, and one hundred and fitty men, were killed and terribly mutilated; two hundred surrendered, and they were imme diately shot in retaliation for executions of Laberals, under Maximilian's decree. The forces of the enemy were those of Viezla, Juarist Gov-

ernor of Coahula.

The defeat of Campos, on the road between Parras and San Juan de Guadalupe, is confirmed. The rebels in Huajuco, or Villa de Santiago, were defeated on the 3d.

A French force had arrived at Monterey. Maximilian had accepted the resignation of Senor Hidalgo as Minister Plenipotentiary to France, and named him Councillor of State. Rumor says that he has refused that dignity

The Emperor and Empress, attended by part of the Court and Government officials, the Bel-gian Legation, and a number of French, Austrian, and Belgian officers, were present at the obsequies rendered to Baron d'Huart, in the Church of San Gerommo.

Letters from Guaymas of the 13th of February give more melancholy details of the occupation and fate of Alamos. The loss of the place was attributed to the delay of pecuniary aid, which had been vainly solicited for many days; and when it arrived the battle had commenced, and Almada had no more than three hundred men, debilitated by hunger, and having to tight an

enomy four times stronger in numbers.

The former Juarist officers paid by the Gov ernment in Mazatlan are loud in their declarations against the Empire-so says the corres pondent of the Estafette.

From Sonora I learn that Martinez had moved from Alamos on Hermosillo. Two French regiments, named Camu and Pujot, had tallen into the the hands of guerillas, and had been badly treated. The former had cost him \$10,000. The liberation of the

The Era says the Senora Carmen Tarela, the mother of General Miramon, died here three days ago.

The Monterey Gaceta states that on the 24th of February the Juarist chief Elizondo, and a few of his band, were attacked and dispersed at San Francisco de Apodaca, Elizondo himselt being killed.

It is reported that some fifteen hundred men of all nations, in the service of the empire, have started from various points to unite at Tiaco talpam, a town on the Alvarado river. As ye nothing is known here of the result. Most pro bably it will be a second edition of the late Commandante Superior Marechal, who was killed at Cocuita, a small village near Medelin An indignation meeting was recently held at Cordova by the American colonists recently imported under the belief that they would have and given them to cuitivate, but upon arrival

they have found that the lands are not yet sur-

veyed, and no preparation made except on paper to receive them; consequently they are

exasperated against the emigration companies and their agents.
Some five hundred used-up Freuch and Austrians embarked from Vera Cruz for their longed-for homes a few days ago.

TAMPICO. The Iris of the 3d, under the head of Cuidad Victoria, says that from advices received from Santa Barbara of the 25th of February, there was no doubt that Garza had taken command on the 6th as general of the central and southern forces of that department, as he publishes in his proclamation. It also appears that he was organizing his troops to carry out the "great enterprise" which he had proposed. In order to obtain the means to do so he had sent his brother with four hundred and fifty cavalry to take pos-session of this place by a sudden attack, in order to obtain four or five hundred thousand dollars from the commercial community of this port, to

The criminal Cheno Cortinas, who is charged by the American authorities with participation in the atrocities committed at Bagdad, has passed over to this district, recognizing Garza in his new character as Governor and commander in-chief, and offering him the aid of five hundred

armed men. The official organ of the 17th states, that Ascencion Gomez, Mendez's second, has taken command of the forces marauding Tamaulipas, and it was said that he was on his way to Culdad Victorio to suppress a mutiny got up by Manuel Gardett, who it appeared had escaped to the frontier in search of his friend Canales. Gomez had appointed Antonio Perales as political chief of Cuided Victoria.

SERIOUS RAILROAD ACCIDENT IN THE TWENTY-FOURTH WARD-AN ENGINE BREAKS THEOUGH A BRIDGE-THE FIREMAN KILLED, AND ENGINEER FATALLY INJURED .- At an early hour this morning a serious accident occurred on the Pennsylvania Central Railroad, near the Wire Bridge, which resulted in the almost instantaneous death of one man and the serious injury of another. The particulars are as follows:— As the Washington and New York through

train was going north, and while nearing the small iron bridge that spans the Haverford road, in the Twenty-fourth Ward, a switch was accidentally placed in a wrong position, and the engine jumped from the track to the sleepers outside the track. Before headway could be stopped the engine jumped on to the bridge with such force that the latter gave way, pre cipitating the engine, tender, and one of Adams Express barrage cars, into the road under the bridge, killing the fireman, and very badly scalding the engineer.

The fireman's name was Robert Bingham. He was twenty two years of age and single. resided in Chester county, and, it is stated, in comfortable circumstances, and was acting as fireman more from fancy than necessity. The switch-tender was not the regular one who attends to this duty. His name is William Young, and had been engaged only a short time in this position on this road. The engineer, after being scalded, walked from the scene of the disaster to the Crittenden House, about half a square distant, where his wounds, which were frightful, were attended to. He remained there until the time of his death, which occurred at twenty-five minutes of mne o'clock this morning. His name was Thomas Fringerirocker. He re

sided with his family at Lancaster. passengers and passenger cars escaped without injury. The passengers knew nothing of the occurrence at the time, merely supposing that the train had been brought to a sudder as is frequently the case over that portion of the

The bridge was greatly damaged, but the in ury to the engine was not of a very serious character. This engine is what is termed 'Shifter." and is used for the purpose of drawing the through trains from the Falls of Schuylkill to Gray's Fetry.

The Coroner will hold an inquest in the case

FROM A BALL-ROOM TO THE STATION House.—Last night a ball took place at the Musical Fund Hall. Archibald McHenry was there tripping it on the "light fantastic." He emerged from the ball-room to get a whiff of fresh air. About this time some of the Eighth Ward police were engaged in arresting a man on Locust street, near the hall, for some offense or other. McHenry could not bear to see a fellowcreature in such distress, and valorously rushed to the rescue, in doing which he struck an officer on the back of the head. Result-McHenry succeeded in getting the party being arrested away from the clutches of the police, who ran off rejoicing; but, unfortunately for Archy, he became a "sub," and was marched off by the officers into the presence of Alderman Swift, who held him to bad in the sum of \$1000 to

SPECIAL OPENING OF SILK CLOAKS AND MANTILLAS.—Edwin Hall & Co., No. 28 South Second street, made a special opening of silk cloaks and mantillas on Monday, the 2d of April, which our lady readers would do well to inspect. They will find them very desirable, and the assortment so varied as to suit the tastes of all. The stock of silk dress goods, shawls, do-mestic goods, muslins, etc., at Mesers. Hall & Co.'s was never more complete than at the present time, and the prices at which they are disposed of are fabulously low, compared to last year's prices. An examination of the large and magnificent stock will satisfy any one of this, and as drygoods can hardly be lower, now would seem to be the time to buy.

BILLIARDS .- M. Victor Estephe has chal-BILLIARDS.—M. Victor Estephe has chal-lenged Mr. Robert T. Ryall, champion of the State, to play for the champion cue, and the contest will probably take place in about a month. It is likely to be one of the finestgames ever seen in Philadelphia, for the contestants were never in better play, and with the "push shot," are well matched. Already great interest is taken in the result by the tens of thousands of people who play this heautiful game, but we is taken in the result by the tens of thousands of people who play this beautiful game, but we regret that a newspaper in New York should endeavor to make trouble where none exists. The Turf, Field, and Farm has stated that Mr. Ryall, the late champion, and Mr. Plunkett have combined to keep the champion cue in their hands, by playing "shuttleoock;" that is, challenging each other alternately, and agreeing to win and lose alternately. This odious slander has been copied into several journals, and for the credit or Philadelphia, should nals, and, for the credit of Philadelphia, should be exposed. Those who know the reputation of the players, need not be assured that they would be incapable of such unworthy conduct; but the slander may be silenced by the fact, that the rules of the Billiard Congress of Pennsylvania make such a "shuttlecock" arrangement impos-

Thus when Ryall defeated Plunkett, last Thus when Ryall deleated Plankett, last month, Estephe was entitled to priority in the challenge, and used his right. There were other errors made by the Field and Farm, but we need not notice them. Thus far the good feeling in the Billiard Congress of Pennsylvania has contrasted greatly with the dissensions of New York players, and it would be a start the working of contrast of provide paying should the calumnies of outside parties should interfere with the harmony of our players. Mr. Plunkett accepted his late defeat in the best of tempers, and we know that both Mr. Ryall and Mr. Estephe would despise the title of champion, if these disgraceful insimuations should

MEETING OF THE AGRICULTURAL SOciery.—A stated meeting of this Society was held this morning at 11 o'clock—Craig Biddle, Esq., President, in the chair.

A communication was presented giving an account of the first cheese factory established in the country, which is located in Susquehanna county. The season commences in May, and continues about five months and a half with a consumption of 400 to 600 barrels of milk per day. In 1857, the total exports of cheese from the United States amounted to 6,500,000 pounds of which about 4,000,000 pounds were shipped to Great Britain, while in 1865 the exports from New York alone were rising 50,000,000 pounds of an estimated value of \$8,000,000.

The original cost of the cheese factory alluded to, including two vats and a heater, press and card knives, and other utensils, was about \$3250. A superintendant, one man, and two women are all the labor and attendance there is requisite for the manufacture of cheese from the milk of 400 to 600 cows per day

Two other factories are being erected in Susquehanna county, distant nine and thirteen miles respectively from the one referred to, and about seven miles from points on the Delaware and Lackawanna Railroad, by which they have communication with New York. An address was delivered by Dr. Jennings on the hog dis-ease, after which the meeting adjourned.

STOLE A MULE AND WAGON.—On Sunday afternoon a person having a mule and wagon in charge stopped for a short time somewhere in the Twentieth Ward, and left his team porarily unprotected. A man named John L. Tinsmun happened along that way, and after surveying the mule and wagon, took such a fancy to the same that he took a seat in the wagon and the reins in hand at the same time and drove off. The missing team was traced as far as the Rising Sun, where mule, wagon, and thief were found. The team was returned to its owner, and the thief of the same taken before Alderman Fitch, who committed him to

The fact is, Mr. Stewarf has no intention of demodishing the place, and is so satisfied with Mr. Wheatley's management, and so anxious to retain him as lessee, that he has advanced his rent for the next three years eight thousand dollars. Mr. Wheatley is naturally very proud of this mark of Mr. Stewart's extern.

SCOVEL.

The Republican Caucus and the Nomines -Mr. Scovel's Doings. Etc. Special Correspondence of The Evening Telegraph.

TRENTON, April 4.

The Republican caucus, which met last night, was entirely harmonious. Harlequin Scovel was not present, and consequently did not "speak a piece." The public look with some anxiety for the action of the Legislature to-day. The Republicans have their decks cleared for action, and Mr. Scovel, the "partridge of the mountain," will be forced either to support Mr. Cattell, the nominee of the cancus, or cast in his lot with the Democracy, for the purpose of defeating his own party. This places Mr. Scovel in a very delicate position, and it will require some nerve to assume responsibilities that must of necessity result in future odium. The question of going into joint session will be urged by Mr. Ludlam, of Cumberland, this morning, thus forcing Scovel to take sides. It is pretty clear that he will sacrifice everything to defeat Mr. Cattell, but it is believed that Mr. Cattell has sufficient strength and popularity to go through in spite of all opposition. Some of the gentlemen suggested by Scovel are indignantly denying any complicity with him in his disorganizing schemes, and are hearty in their support of the caucus nominee. The ill-advised and ill-tempered speech of Scovel vesterday morning combined the Republican party on Cattell, and they will light for him to the bitter end. It is altogether likely that Scovel will do as he prophesied yesterday, "go down like the Cumberland," or, perhaps, like Luciter would be a happier metaphor. No one here doubts the fact that Scovel is grinding an enormous axe, and that he expects to come out winner. As a public man in New Jersey he is dead as Hector, and beyond the reach of a political resurrection. He feels that he has made a faux pas, but he does not see his way clearly out of the dilemma. It is not probable that the motion to go into joint session will prevail, but it will be presented, in order to put everybody squarely upon the record.

The New Jersey Senate.

TREATON, April 4.—The Senate, by a vote of 8 to 11 to-day again refused to 20 into joint session for the purpose of choosing a United States Senator.

the bill was amended and passed.

Mr. Phelps (Mo.), from the same Committee, reported the bill for the relief of Hiram Pauld-Regr-Admiral of the United States Navy, which had been yesterday recommitted. The bill, as reported to-day, omitted the words "technically making an appropriation," and simply directed the proper officer to audit and settle his accounts, which, by the uniform ruling of the House, does not bring a bill within the rule requiring bills making appropriations to be first considered in Committee of the Whole. After considerable debate as to the propriety

of allowing a naval officer for his expendes in entertaining guests on board of his vessel, the bill was, on motion of Mr. Ross (Ill.), laid or the table.
